WALL MOUNTED SHELVING:

Take advantage of wasted wall space with RJ Fabricator's stainless steel wall shelving. Our 18 gauge stainless steel shelves feature all welded construction with all corners ground smooth and polished. This makes the shelves both durable and sanitary. The number of brackets supplied increases in direct proportion to the length of the shelf in order to assure proper support. The wall shelves are available in 12", 14", 16", 18" widths, and in a number of standard lengths from 36" to 120".
